

#### Product description

Zettex Foam Cleaner is a powerful cleaner to remove uncured PU residu.

#### Advantages

- Fast evaporation
- Easy to use
- Universal connection

#### Application instructions

- For cleaning the Foamgun and the removal of PU residues. After you have removed the empty foam can, screw the Foamcleaner on the adapter. Pull the trigger a number of times and the cleaner thoroughly cleans the gun. Allow the cleaner to work in for a short while and spray again in the pistol. After using Foamcleaner you must be clean and dry the screw head. Then lubricate the adapter with petroleum jelly on both sides.
- To clean the foam can place the activator on the valve. Then press carefully in the direction of the soiled place. Allow the cleaner to work in for a short while and remove the polyurethane residues with the Zettex Bonte tricot cloths.

#### Available forms

- Spray can 500 ml.
